

PASTURE

FOR HORSES AND CATTLE.

IN THE RINCON DE LOS BUEYES, between the La Ballona Ranch and Los Angeles, and four or five miles distant from this city, I have fine pasture for horses and cattle. The place is well fenced and contains about 500 acres of land. There is Spring grass and bottom land in which there is excellent feed all Summer. On the place there are two good zanjas.

It is, without doubt, the best piece of pasture land in the county.

RATES MODERATE. I have men employed who will take care of the animals.

For further information apply to the undersigned in Los Angeles, or to Don Antonio Rocha on the premises.

Any person wanting to lease the whole of the place, can call upon the undersigned.
